Berlin X	Transport Division		

8

1. ☐ Comment. The existence of the KVP Athletic School was previously known. 25X1
2. ☐ Comment. These data agree with previous information on the distribution and organization of Mechanized Division Potsdam.
3. ☐ Comment. This confirms the existence in Oranienburg of the KVP AAA School.
4. ☐ Comment. So far, it had not been known that an engineer regiment and a central engineer depot were located in Kirchmoeser. The central engineer depot is carried as being located in Kuechensee, while KVP engineer regiments are held at Kuechensee and Nietz. No information had been received to this effect that one of these regiments or the engineer depot moved to Kirchmoeser.
5. ☐ Comment. These data confirm the KVP signal regiment and the other installations mentioned as being located in Niederlehms.
6. ☐ Comment. A supply depot of the KVP is known to be located at Schoeneicher Plant in Mittenwalde. It is believed that mechanical training equipment is being stored at the depot involved. 25X1
7. ☐ Comment. The units and agencies mentioned were known previously. The guard unit is the KVP guard regiment in Berlin-Biesdorf. The Motor Pool is the Motor Transport Regiment of the Ministry of the Interior/KVP. The regiment consists of a passenger car battalion and a truck battalion. The Political Administration for Special Installations is part of the Political Administration of the Ministry of the Interior/KVP. The Political Administration involved serves all KVP installations in the Berlin area. The Transport Division is subordinate to the Central Transport Administration and is probably assigned to the Berlin Regional Railroad Headquarters.
8. ☐ Comment. The Roman symbols used in the tabulation only serve to differentiate between the KVP units and installations located at one place. They are not designations for the installations in which they are quartered or housed. 25X1
